

How can YOU involve undergraduates in your SAA chapter?

Your chapter can be a great resource for undergraduates joining the audiology community!

Gather contact information for all undergraduates in your department and invite them to SAA meetings and events.

Encourage national SAA Undergraduate Associate membership.

Host events specifically for undergraduates.

- Social event to foster community.
- Graduate student panel to answer questions about graduate school and applications.
- Faculty panel to speak about various career paths.

Offer them opportunities to see audiology in action.

- Ask your supervisors if you may invite a student to observe.
- Invite them to be “patients” while you demonstrate equipment and tests.
