Activity Name:

Activity Purpose:

Our NSU Chapter hosted a school-wide event for those going into the medical field and interested in learning more about patients with hearing impairment.

Activity Description:

Deliver a session to those who wish to develop their understanding of Deaf and hearing impaired culture, learn more about the barriers and isolation experienced by this community, and appreciate that deafness and hearing impairment affects individuals in different ways. We promoted the concept that one size does not fit all and explored communication and environmental issues that affect a deaf person in their daily life. Our chapter wanted to break down attitudes and communications barriers.

Important Contacts or Resources:

We contacted multiple professionals in our area to speak. We managed to get in contact with the curriculum supervisor for our county's public schools. She was in charge of supervising programs for children with disabilities, including hearing impairment.

Tips:

Start planning the event a month in advance. Finding a speaker was the toughest part. We collaborated with our Student Activities Office to help pay and promote the event. They helped by posting fliers around campus and sent or an e-mail to the entire student body.
